How to enter

Admissions start 24th January 2017 and you have until 10th June 2017 to get your entries to us. Fill in the online entry form and then click on the “Upload your entry” link to submit the images. Only JPEG files smaller than ten (10) MB will be accepted. All files should include full EXIF/ Metadata. Each entry must consist of three (3) photos in each category that you wish to enter, and you’re allowed to enter as many categories as you like, with each entry judged on the three submitted images in that category. The three images do not have to form a set or series; just three images that fit the nature of the category and best showcase your skill and creativity.

Categories

There are 11 categories in the competition:

Aerial (New for 2018)

The aerial category is for photographs taken from an elevated position not supported by a ground-based structure. Evidence of conformity may be requested.

Art

High-quality fine-art images that have been created by an individual to fulfil their creative vision.
Landscape/Nature

Photographs that capture the beauty of the natural world in all its forms, from stunning landscapes through to perfectly executed images of flora and fauna.

Wedding

This category is open to photographers capturing outstanding images of any aspect of a wedding in styles that range from the traditional through to the more individual approach.

A wide-open category that covers any photography of the human form, ranging from full-length studies through to head and shoulders and close-ups, with the emphasis on creativity.

Fashion/Beauty

The glitz and glamour of the fashion and beauty world is covered by this category, and we’re looking for some inventive and exciting work that truly reflects the dynamism of this sector.

Product

Here the definition of product is as far ranging as the photographer wants to make it, with subjects ranging from cars through to food or packaging being equally eligible, while the brief could be a commercial one or self-set.

Architecture

With every type of building from the grand through to the humble being open to photographers, we’re looking for an imaginative interpretation of the architectural theme.

Wildlife

A wide open category that covers all forms of wildlife, from the huge through to the tiny. Our only stipulation is that images depict living creatures and any entries showing stuffed or dead animals will be automatically excluded.

Project//21

Project//21 is a general photographic category open to all amateur photographers, students, assistants and young professionals 21 years old and under on the 10th June 2017. Proof of age will be required.
Street/Urban

The category here is the realism of the genre; not just gritty street photography, but also the city itself (and its life) and the people who live in it.

Rules

To meet the rules of the competition you need to upload three (3) images in each category you choose to participate in, and you can enter all of the 11 categories should you wish.

Prizes

Each of the category winners will be sponsored with Hasselblad camera equipment for a period of approximately four months. During this time the photographer can use the equipment at their discretion to create a set of images for a special Masters Commemorative book that will subsequently be published. All winning images will be published on the Hasselblad global website, will possibly be presented at exhibitions around the world, will possibly feature in Hasselblad advertising and Masters Partner’s promotions, and in the Hasselblad Masters Book Vol. 6. The book will be launched at photokina 2018 and the winners will be presented with a trophy.
Each of the 11 winners will also receive a high-end medium format Hasselblad camera to keep.

Hasselblad reserves the right to use all Masters images indefinitely across digital & print platforms and each usage will always credit the photographer appropriately.

Judges & Jury

Hasselblad Masters are carefully selected by three juries – the Hasselblad Internal Jury, the Hasselblad Public Jury and the Hasselblad Masters Jury.

Hasselblad Internal Jury

This jury consists of Hasselblad employees and selected third-party industry experts that are skilled photographers, or who work with photographers, photographs and photographic media, or work within the photographic industry. The task of this jury is to select the 110 Hasselblad Masters finalists (the top 10 in each category) through an internal voting system.

Hasselblad Public Jury

The Hasselblad Public Jury will identify a 1st, 2nd and 3rd place entry from each category. These selected entries will then score points towards the ‘Hasselblad Masters Jury’ vote, with the public jury therefore effectively acting as a ‘seat’ on the main jury. The Public Jury votes are placed using a rating system where each public individual can award 1, 2 or 3 stars to an image in each category. It is not possible to vote more than once on an image, and once the total of 6 allotted stars are used up, that image category is considered closed and the voter can move on to the next category. It is not mandatory to vote in all 11 categories. Individuals wishing to vote must have a login account for the Hasselblad website and be logged in, with accounts restricted to one set of votes in each category, so to eliminate multiple votes from the same individuals. Hasselblad reserves the right to overrule the public vote if it suspects foul play or an untrustworthy result.

Hasselblad Masters Jury

The Hasselblad Masters Jury features 24 (in addition to the public vote, making for a total of 25 member votes) of the industry’s most respected photographers, established editors and industry experts, along with previous winners of the Masters competition. Together they constitute the majority of the Masters votes, and use the same star rating system as the public jury. Once the Masters jury has completed their votes, the result of the public jury is added and the winners for each of the 11 categories are announced.
